

Hayden Leung

hellohaydenleung@berkeley.edu | www.haydenleung.dev/ | xxx, CA | (xxx) xxx9273

EDUCATION

University of California, Berkeley

May 2030

Bachelor of Arts in Mathematics (intended)

GPA: N/A

- **Relevant Coursework (IP):** Multivariable Calculus, Linear Algebra and Differential Equations, Discrete Mathematics, The Structure and Interpretation of Computer Programs

SKILLS

USACO Gold, Codeforces: Specialist (1400+)

Programming: C/C++, C#, JavaScript, Python, Java

Languages: Japanese (JLPT N2), Cantonese

RESEARCH & PROJECTS

The Junior Academy Research Student, Python

August 2024 – May 2025

- Researched and synthesized findings from 15+ sources on AI usage in education and learning environments to inform design of watermarking solution and develop prevention strategies
- Built an AI watermarking extension in Python to embed invisible marks into AI generated content, accurately increasing AI flagging by 30% from internal testing as part of a UN sustainable development goal of quality in education research initiative.

Japanese Graphic Translation Program Python, Tesseract OCR, OpenCV

August 2024 – May 2026

- Achieved 95% OCR extraction accuracy on Japanese image text by building an OCR-based Japanese translation pipeline while preserving semantic meaning.
- Decreased translation time by 15% compared to alternatives with high translation accuracy.

XXX Technology/AI Ad Hoc Committee Member

August 2023 – January 2024

- Evaluated and implemented emerging AI technologies into the educational environment
- Promoted ethical and responsible use of technology to enhance learning outcomes, engagement, and accessibility.

RELEVANT EXPERIENCE/LEADERSHIP EXPERIENCE

XXX Intern, San Jose, CA

September 2025 – July 2026

- Cut internal data retrieval time by 15% by restructuring and transforming stored data using sorting and analysis techniques.
- Increased NFC tag testing motion accuracy by 3x by researching and coding automated 3D movement of a Five-Axis Robot arm in Python

Japanese Language Department Website Administration, HTML, CSS

January 2025 – July 2026

- Collaborated with the Department head to update and create 10+ new pages to enhance the website's functionality and design.
- Increased compatibility for more screen sizes and browsers by testing and ensuring consistency.

Japanese Culture Club President, Vice President

July 2024 – July 2026

- Increased club attendance and outreach by 50% by planning and organizing hands-on activities such as calligraphy and origami, and 5 schoolwide events such as Lunar New Year and hosting Stanford Taiko.

AP Chemistry Teachers Assistant

September 2025 – December 2025

- Test-ran 10+ new labs and variations of labs to ensure labs hold up in theory and in practice.
- Prepped chemical solutions and materials for 15+ labs and helped review tests and quizzes to provide adequate feedback
